That would be great. On our end, it looks like we are free:

- today, Monday, after 2:00 (Eastern), [after noon (MST)]
- Thursday 10:00 am - noon, 2:00 - 3:00 pm, and [8:00 am - 10:00 am (MST), and noon - 1:00 pm (MST)]
- Friday 10:00 am - noon, and 2:00 - 4:00 pm [8:00 am - 10:00 am (MST), and noon - 2:00 pm (MST)]

Mahesh, please let me know if any of those times work for you and I will send out the meeting info.

Thanks,
Andrea

Hi Andrea! We did have a call with the Subcommittee but unfortunately didn't have enough time to discuss this. Sorry for not getting back to you but I caught a bug that knocked me out all of last week and just getting back in the office.

Perhaps we could set up a call later this week with Mahesh to discuss how to better outreach to the States? I have availability all week with the exception of tomorrow afternoon after 3:00 and Wednesday afternoon after 2:00.

Charles

Subject: checking in re: UST biofuels research

Hi Charles and Mahesh,

I hope you both had a lovely Thanksgiving holiday!

Now that my food-induced coma has abated somewhat, I'm back to thinking about biofuels. I just had a call with the Biofuels Team managers, and we discussed our two research projects (Forensic Analysis and Impact of Microbes) and how we've gotten a handful of responses from states, but we would love to hear from more people. For the forensic analysis project, we are still looking for candidate UST components to perform a failure analysis on -- tanks, piping, leak detection, overfill prevention equipment, etc. For the Impact of Microbes project, we still have 16 sampling kits to send out to inspectors.

I think you had a call last week, and one of the things you were going to bring up was this topic and if there was any way you could help us spread the word. Any feedback for us on that discussion?

Thanks,
Andrea
